

# Fowler Public Schools Back to School Plan 2020-21

Updated 1/11/2021

Our Fowler Public Schools Board of Education and staff are committed to providing a high quality education and well rounded school experience to each of our students for the 2020-21 school year, even as we work within the parameters of the State of Michigan's "Back to School Road Map" and "Michigan Safe Start Plan". We are committed to providing a productive and safe school experience that meets the priorities of each of our school families, respecting the role of parents as the critical decision makers regarding the education of their children. We look forward to partnering with parents as we work together to meet not only their priorities, but those of their friends and neighbors as well.

All students enrolled in Fowler Public Schools will be provided in-person instruction. Students required to quarantine due to illness and exposure will be provided instructional materials while absent and make-up opportunities for missed work. The specific model for in-person delivery will continue to be determined in consultation with the Mid-Michigan District Health Department and adaptable to the in-person enrollment percentage by school as follows:

**Fully Virtual: In-person enrollment less than 60% or in Phase 1, 2, & 3** - Model using the Google Classroom online learning platform as the primary mode of instruction delivery with all students learning remotely. The district will deliver instruction similar to last spring, however, with more stringent expectations for direct instruction and engagement with students. Teachers will plan and deliver daily instruction and to make at least weekly contact with students through two-way interactive communication. The instructional process will include evaluation, grading and reporting consistent with current district practices.

**2-1-2 Hybrid: In-person enrollment between 60% & 89%:** Instruction provided in-person 4 days per week on Monday, Tuesday, Thursday, and Friday. Instruction to all students is through remote learning on Wednesdays. In-person instruction will follow established educational practices. The Wednesday all student virtual day will provide for extended teacher contact time with quarantined students, assure all students build the capacity to work virtually should a school closure be ordered, and allow for additional staff professional development to support effective instruction in both in-person and remote formats.

**Supported 5 Day: In person enrollment between 90% & 95%** - Instruction provided in-person 5 days per week. Daily coverage for teachers will be provided through the use of substitutes to provide contact time with the quarantined students and assist with tracking their progress to ensure their success.

**Regular 5 Day: In person enrollment between 96% & 100%** - Instruction provided in-person 5 days per week. Instruction will follow established educational practices.

This continuum structure provides the flexibility to move from one model to another based on changes in enrollment patterns or state level decisions. Parents will be provided at least 2 days notice of any transition to another format. We will monitor enrollment patterns and inform parents of any changes as the month progresses.
