

Hello Fowler Public School Family!

As I finish my first semester serving as your superintendent & high school principal, I want to take a moment to thank you for all of your support that you have given to our staff, students and myself. We continue to work toward having in person learning as our priority while always knowing that our world can change quickly as we found out recently with our high school! Our teachers and support staff do a tremendous job preparing for classes and delivering the curriculum and we are very lucky to have such a dedicated staff.

I also would like to thank everyone who filled out our recent surveys. I know that everyone gets inundated with surveys these days, but it really helps our leadership teams in making decisions for our district. The ESSER III results are posted on our website and the perception survey results are being reported back to students, staff & parents (which is actually in this version of the Eagle Flyer).

We are pleased that we have been able to add to our MTSS programming this year for our students and continue to look at additional supports and programs that can help benefit our kids. We have also been able to make some major purchases of custodial equipment that will allow our staff to help keep our facilities looking nice and significantly upgraded our bus fleet this year by getting three newer buses. I am confident that we have a financially sound and bright future ahead of us!

Another area that was strongly identified in our perception survey comments was regarding our website. I am happy to tell you that we are in the process of completely revamping it so that it will be more secure, organized and mobile friendly. We are hopeful that it will be complete before the school year ends.

We continue to grow our work based learning program for our high school students. If you own a local business and would be willing to help our kids learn and experience these valuable skills, please contact Joel Mero or myself. We would be glad to answer any questions you may have and would love to grow more community partnerships with our district.

The Annual Education Reports for Waldron and FHS have been updated for the year and are available for you to view on our website. We certainly have many reasons to be proud as our data is among the best of the schools in our area! It certainly validates the strong commitment to education in partnership with our staff, students, parents and our community.

Lastly, I would like to talk briefly about mental health wellness. With the ups and downs everyone has been facing over the past couple years, it is important to make sure we continue to have conversations with each other and especially with our kids. Clinton County has some tremendous resources available for support. A summary of services available are available at: bit.ly/ClintonCountyResources. If you ever have any questions or concerns, please feel free to contact me.

Sincerely,

Mark Howl
